some satisfied customers.. I'd like to take a minute to offer the very highest praise for Engine & Transmission World. I initially ordered a motor, finding that they had the best value/lowest mileage engines available from all the quotes (and there were many quotes I received, at least 15, ranging from \$1500 for a motor with well over 100,000 miles on it, to \$400 with 80,000 miles).

Mitsubishi introduced the "Colt" name in 1962 on the Mitsubishi Colt 600, the first of a line of small family cars complementing their Mitsubishi 500, the company's first post-war passenger car. The Colt 600 is powered by a 594 cc NE35B OHV air-cooled straight-twin engine. At this time, Mitsubishi did not yet exist as an autonomous company, and vehicles were being produced by three regional ...

The Mitsubishi FTO is a front engined, front-wheel drive coupe produced by Mitsubishi Motors between 1994 and 2000. It was originally planned to be exclusively for the Japanese domestic market, although its popularity as a grey market import to the United Kingdom, Ireland, Hong Kong, Australia and New Zealand led to eventual limited distribution through Mitsubishi's official dealers in those ...

Mitsubishi FTO - Wikipedia

Although they are small, the most important parts in the electrical system may be the fuses, circuit breakers, and relays that protect the system from damage. Fuses are sacrificial parts that are designed to melt and interrupt the circuit if there is excessive current flow that could otherwise overheat and cause damage to the circuit, even cause a fire.
